## DETAILED ACTION

### *Specification*

The disclosure is objected to because of the following informalities: Page 1, line 1 of the specification fails to contain the proper continuing data regarding the provisional application. Appropriate correction is required.

### *Claim Objections*

Claim 9 is objected to because of the following informalities: In *independent* claim 9, line 1, the applicant claims "said blade" and on line 2 the applicant claims "The fertilizer". There is no prior mention of "a blade" or "fertilizer" and therefore the claimed subject matter lacks proper antecedent basis. Appropriate correction is required.

### *Claim Rejections - 35 USC § 112*

Claims 5 and 9 are rejected as failing to define the invention in the manner required by 35 U.S.C. 112, second paragraph.

The claim(s) are narrative in form and replete with indefinite and functional or operational language. The structure which goes to make up the device must be clearly and positively specified. The structure must be organized and correlated in such a manner as to present a complete operative device. ***The claims must be in one sentence form only.*** Note the format of the claims in the patents cited.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-10 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Brain et al.'940.

Claims 1-10 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Miers '568.
